MERZ INSTITUTE

ADVANCED AESTHETICS

THE MEDICAL BUSINESS ACADEMY

A global business training solution that helps healthcare providers set up, operate and sell their business effectively within aesthetics

INCREASE YOUR TEAMS PRODUCTIVITY BY 73%

Gain unlimited access for you and your staff to receive Customer Service, Business, Marketing and Product training for as little as \$95/mth.

This includes:

- The ability to upload your own staff training
- Unlimited user accounts per clinic location
- Assessments and certifications.

ACCELERATE YOUR GROWTH

Depending on your level of Membership, you may qualify for our **Business Mentorship program**. This will give you access to business mentors throughout the year to answer all your questions.

ACCESS TO INSPIRATIONAL BUSINESS SPEAKERS

Get access to some of the world's leading marketing and business experts at the first ever 'virtual' summit hosted by MyFaceMyBody in 2019.

Listen to your peers speak about how they setup their practice, overcame challenges and are now experiencing substantial growth in their business.

REWARD AND RECOGNIZE YOU AND YOUR TEAM

The MBA helps aesthetic businesses become award winning to recognize those that deliver a 5* customer experience to their clients. MyFaceMyBody has been recognizing customer excellence for ten years. You can now receive prestigious certifications, accreditation and awards by excelling in your local business with the ability to benchmark yourself with similar practices all over the world.

DOUBLE YOUR PROFITS WITHIN YOUR BUSINESS

- ✓ Are you looking to better understand the current performance of your business?
- ✓ Measure and monitor the sales performance of your business?
- ✓ Identify missing areas of business growth?

Our MBA membership can help you measure the revenue growth and true value of your customer.

Welcome...

...everyone to the prestigious MyFaceMyBody Awards – the largest awards program voted on by you, the industry. The awards celebrates total excellence within aesthetics all over the world.

2019 sees the awards program open its doors even further to allow entries from any country across the globe. In addition to being recognized regionally, local winners are considered for the accolade of Overall Global Winner.

We have been thrilled with the quantity and quality of entries received and the amazing response we have had from industry professionals. The MyFaceMyBody Awards are all about recognising brands for their product innovation and popularity and rewarding practices for the exceptional experience and outstanding service they provide to their clients.

On behalf of the judges, sponsors and MyFaceMyBody we would like to congratulate everyone who entered. Winning a MyFaceMyBody Award has proven to be 'the award' to win within the aesthetics sector and gives consumers the confidence and quality assurance they need when looking for reputable providers or brands.

We are amazed at the support from all the industry associations and the time and expertise invested in the process by the judges.

- Vendor Management
- Clinical Documentation Improvement
- Revenue Retention

...and much more.

Find out how Mazars can optimize your organization's performance by visiting MazarsUSA.com/HC.

Mazars USA LLP is an independent member firm of Mazars Group.

THE INAUGURAL GLOBAL VIRTUAL AESTHETIC SUMMIT (GVAS) 2019

A groundbreaking success

Held over a continuous 48 hours, on Sunday and Monday, 10th and 11th November, the first-ever Global Virtual Aesthetics Summit 2019 was a phenomenal success. Over 1,432 Aesthetic professionals attended from over 22 countries including America, UK, Australia, India and as far afield as Grand Cayman, Russia and the Philippines. Clinical staff, plastic surgeons, doctors, and press all attended this groundbreaking event, joining seminars and workshops, networking and visiting exhibition stands, all hosted in a virtual space.

WHAT THE INDUSTRY SAID:

Your idea is such a mastermind and the follow through and execution has been seamless and smooth! The level of training offered has been superior and it has been so much fun interacting with the exhibitors in a virtual platform without having to walk miles and miles of hallways to see another exhibit; so easy to visit with an exhibitor just at the click of a button! I have hardly left the GVAS platform and have enjoyed entering the conference on the 3 different time zones over the last day and a half to maximize attendance! Quite a magnetic conference, I must say! Thank you Stephen of your brilliant idea of GVAS!

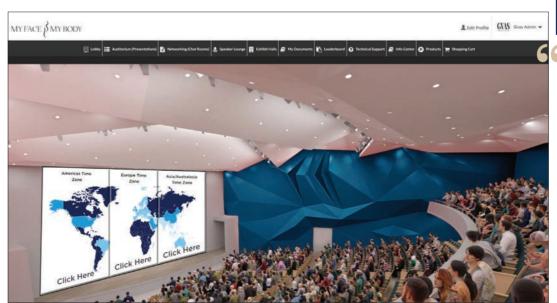

Dr Anna Petropoulos USA

You have brought Aesthetic Medical Education to a whole new level!
Excellent scientific program, excellent presenters, excellent organization.
Thank you!

Dr Luna

Attended 2 full days of GVAS. world's first virtual Aesthetic along with many of my colleagues in China who attended the GVAS n China were overwhelmed by the collection of world's top physicians and the quality of their lectures. Normally, we would have to spend weeks of time and tens of thousands of dollars to get the learning visiting the exhibit halls at GVAS. was able to have access to the material and interact with the echnology companies easily and all done on my own terms without the feeling of being pressured by the sales people. The chat room was a great place to communicate open discussions, not only regarding products and technologies, but also sharing our experiences with physicians all over the world. I don't believe I have ever experienced such rich learning and exchange during 2 decades of attending traditional conferences.

The best part is that I did it all in the comfort of my living room while sipping on a glass of wine. I loved it Can't wait for GVAS 2020.

I can honestly say that I was surprised that the concept of the GVAS was so well-received by my staff. I typically have difficulty in finding enough lectures at conferences for my staff to attend so much so that many times I do not take them. They were pleased that one of the days was not a work day. They were so excited that they blocked out their schedule to ensure they wouldn't miss the speakers. My staff basically jumped all over this new learning concept!

Thomas E. Young, MD -Young Medical Spa®

The Whole event looked really slick. We saw spikes on our website which was great and even though it was strange to just look at people come and go its something im sure will catch on! I hope those attending understood the work that went into it. Well done!

Raffi Eghiayan Wigmore Medical

would like to say thank you to the GVAS team. I have always thought that going virtual was the future but I still had my doubts about whether it would work or not. I have to say your team pulled off an amazing event and as an exhibitor we engaged with a lot of doctors and received a lot of leads. There were a couple of technical Definitely signing up for next year as I know this is only going to get bigger and better each year. Just getting our team to a physical conference costs more than what this did. without all of the headache, drama and interruption to our business. Well done! Joel Marshall DP Derm

Boost Your Hair Loss Treatments

GROWTH FACTOR 3X: Recombinant poly-GF (Growth Factors) EGF, FGF and KGF

Increase the effectiveness of PRP and microneedle treatments with targeted growth factors for thinning hair and hair loss.

Growth Factor 3X Professional Serum is a topical solution containing growth factors from human cells, isolating three specific growth factors known to be of primary importance in hair follicle stages and scalp health. Applied by a medical professional, this serum can be used in conjunction with all modalities for encouraging hair follicle stimulation.

The full LOCK RX Topical Healthy Hair Plan can be used with medical modalities in the clinical setting, as well as at-home products to continue the growth factor support and balance the scalp microbiome, while enhancing the environment for healthy hair growth.

Bellafill

Bellafill[©] is indicated for the correction of nasolabial folds and moderate to severe, atrophic, distensible facial acne scars on the cheek in patients over the age of 21 years. Patients who have had a positive reaction to the Bellafill Skin Test, have a history of severe allergies, have known bovine collagen allergies, are allergic to lidocaine, have bleeding disorders or are prone to thick scar formation and/or excessive scarring should not receive Bellafill. The safety of Bellafill for use during pregnancy, breastfeeding, or in patients under 21 has not been established. You may experience temporary swelling, redness, pain, bruising, lumps/bumps, itching, and discoloration at the treatment site. These side effects are usually transient and typically resolve within 1–7 days. You may experience lumps/bumps/papules that may occur more than one month after injection and that may persist. Less common side effects include rash and itching more than 48 hours after treatment, persistent swelling or redness, lumps/bumps, acne, and increased sensitivity at treatment itself. Infrequently, granulomas may occur and may be treated by your licensed physician provider. Be sure to call your licensed provider immediately if you notice any unusual skin reactions around the treatment area. Based on the 5-year Post-Approval Study on nasolabial folds with 1,008 patients, long-term safety of Bellafill for up to 5 years has been established.

Puregraft

his product is certified as a medical device in the European Union under the Medical Device Directive 93/42/EEC by SGS CE0120, exclusively for the indication of autologous fat transfer. Other non-medical uses ascribed to this device such as aesthetic body ontouring are not within the scope of CE certification, and users should be aware product performance and/or safety has not been evaluated by SGS for those purposes.

HD PRP

REGULATORY STATUS: FDA-cleared 510[k] Class II medical device. HD PRP is designed to be used for the safe and rapid preparation of autologous platelet-rich plasma (PRP) from a small sample of peripheral blood at the patient point of care. The PRP is mixed with autograft and/orallograft bone prior to application to a bony defect for improving handling characteristics.

Mint is the latest revolution in PDO threads with a patented helical moulding structure making the lifting effect 4 x stronger than any other PDO thread on the market.

Minimally Invasive Non-Surgical Thread

MINT Thread Lift®

WHAT IS MINT THREAD LIFT ®?

MINT Thread Lift is a safe and effective molding PDO thread to lift soft tissues in sagging skin.

It is a minimally invasive treatment without scarring and trauma to the skin, so patients can get back to daily life right after the procedure.

Human tissue consists of a 3D structure, so it is hard to see a great result with threads that do not have a 3D helical type of barb.

MINT Thread Lift has a 360 degree of helical barbs around the threads that has been secured by Patent Act. This creates a strong pulling effect by fixing the facial tissue in various directions effectively, this is what makes MINT Thread Lift special.
